What is art?

To analyze the essentials that distinguish the being of art is a rather complex matter. Art is something elusive and poetic, like moonlight, mercurial and dynamic, like quicksilver. Art is moonlight and quicksilver.

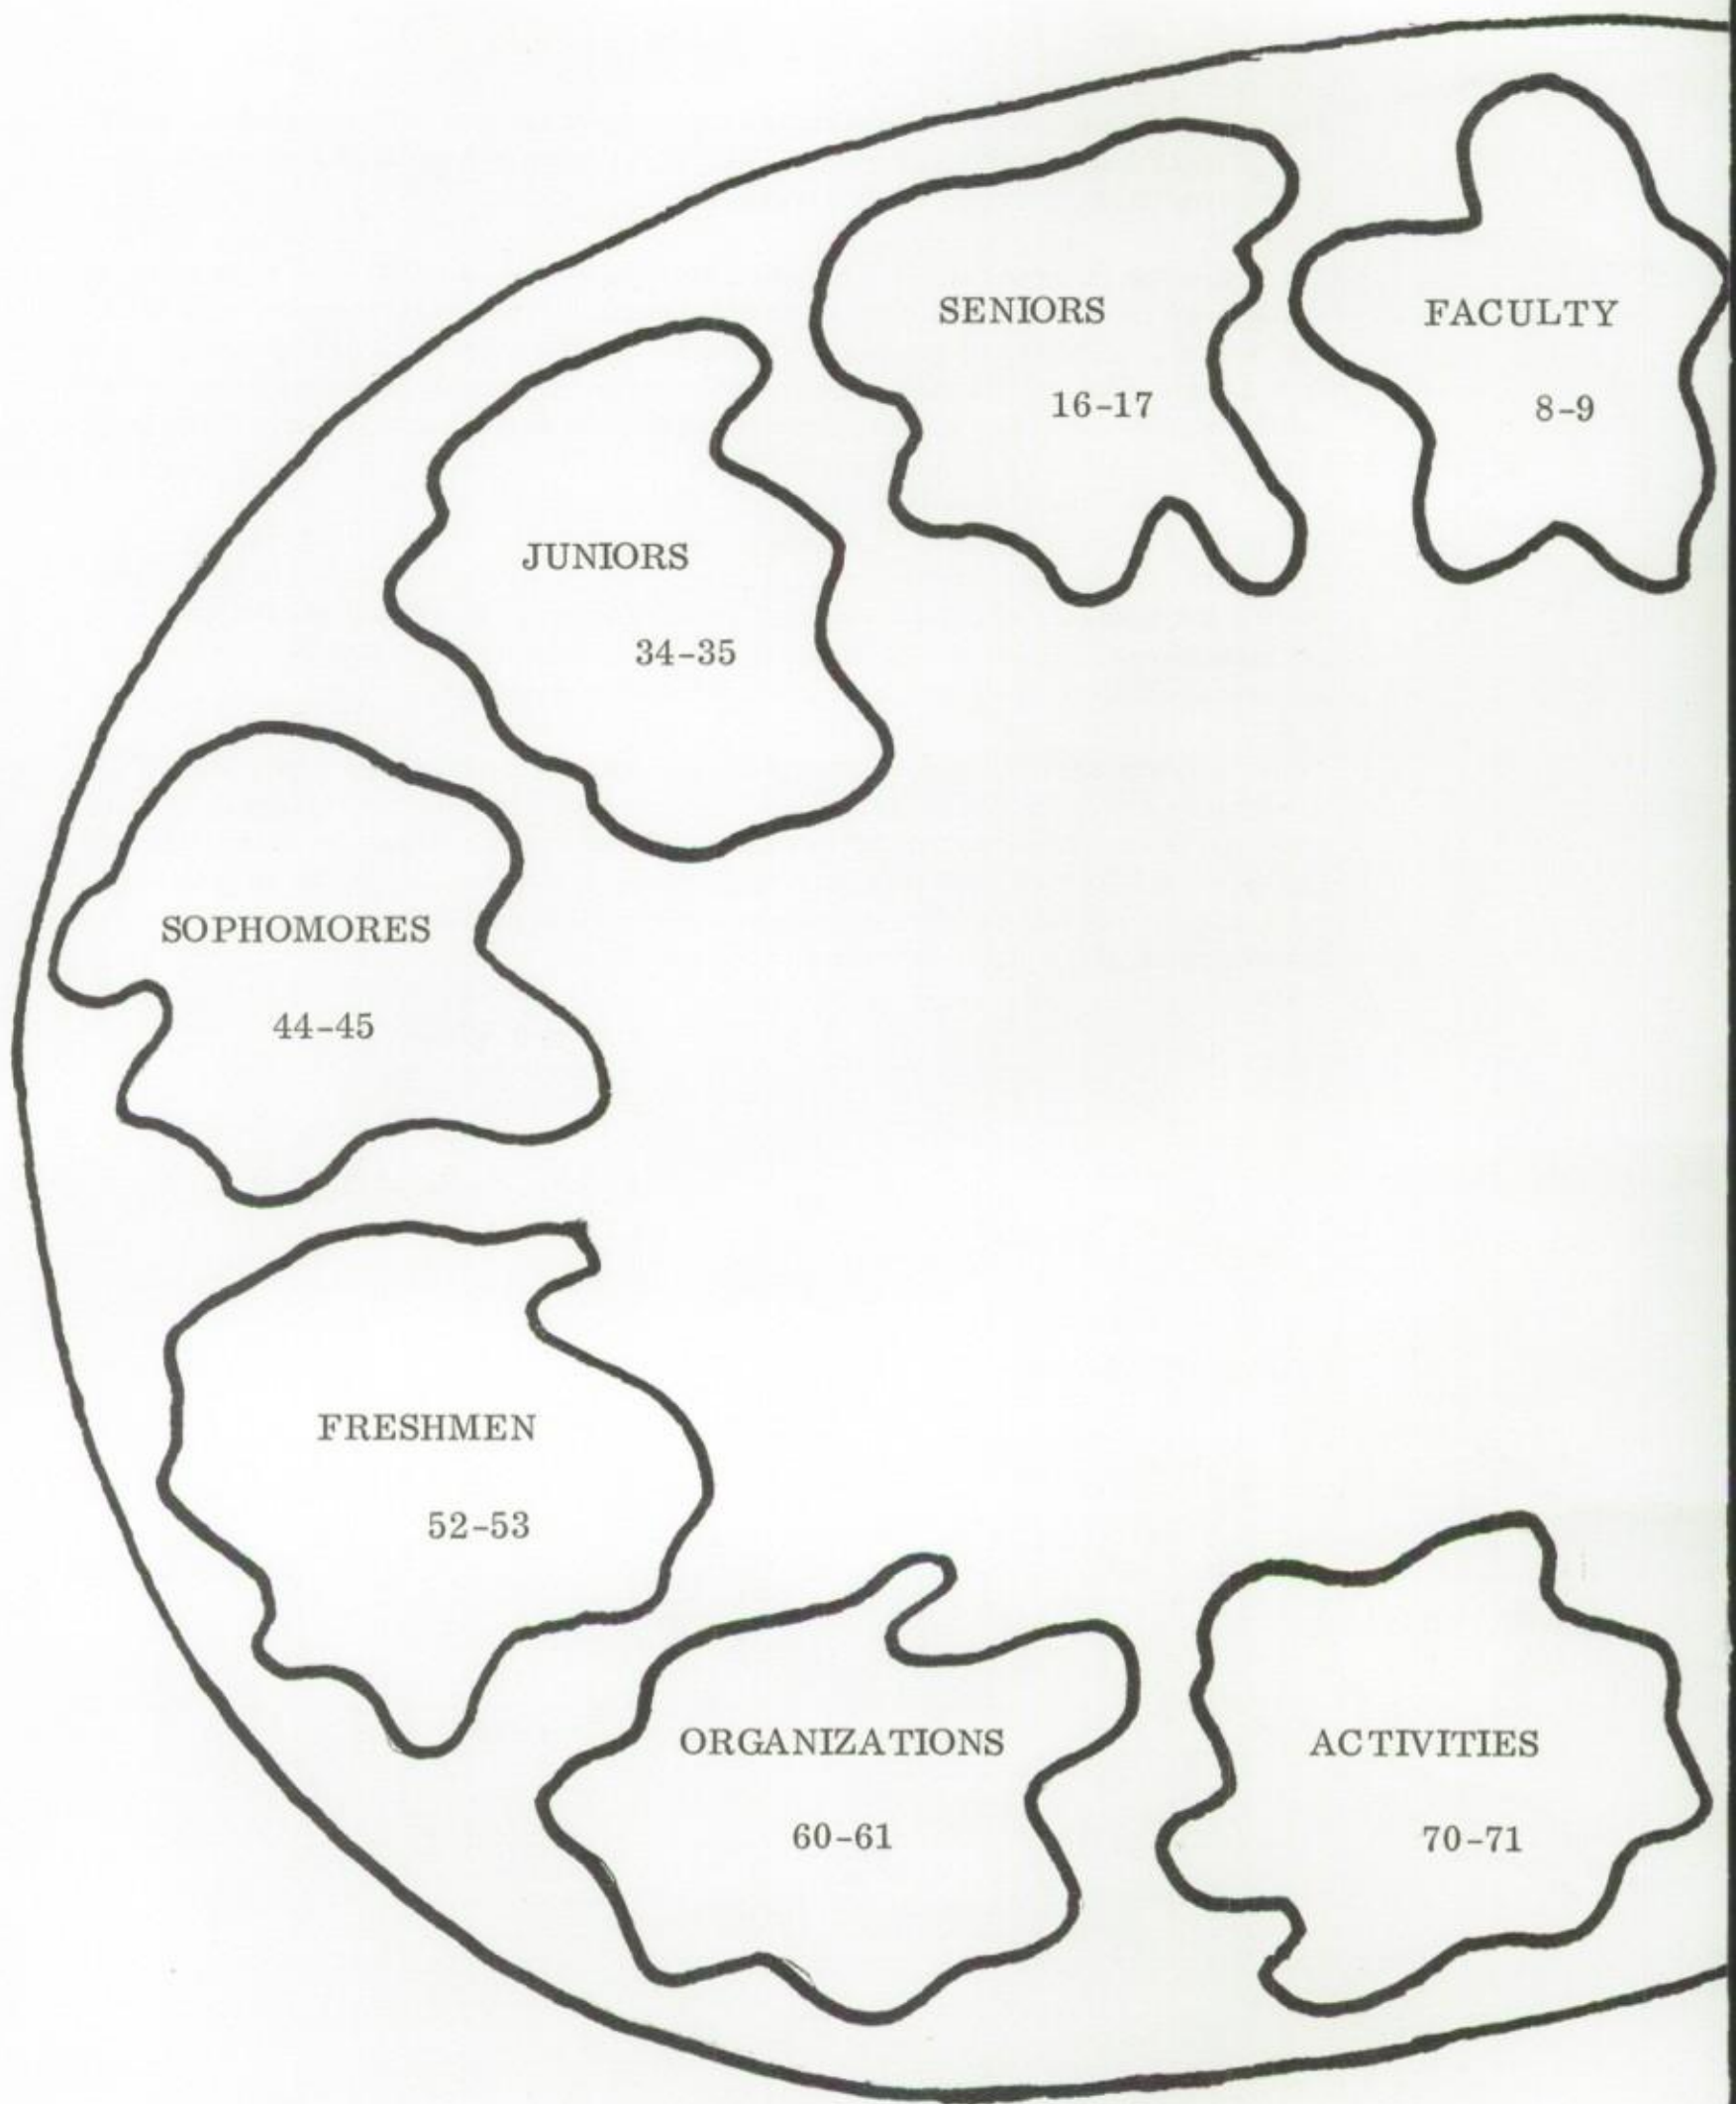

There are spatial arts, which are static, plastic, visual arts that have no movement in time and need only to be seen to be appreciated. There are temporal arts which are auditory. There are composite visual and auditory arts that are dynamic, synesthetic arts, or arts of movement. One must not forget the basic truth that art is neither a game nor just a luxury. Art is a noble, spiritual relationship resulting from the interaction of man with his environment.

Art is adventure because it is Man's action against his environment, trying to re-create it. This is not merely production or even re-production. Art is pure creation, a harmonizing with the perfect, Divine creation. To the artist, the great and gay adventure is to find beauty where the ordinary man does not find it. It is superior action combined with the motivating force of imagination.

Art is also a necessity. Man must express his creative instinct, for every man feels, whether he expresses it or not, a desire to create something. The greatest thing about art is that every person alive can become an artist. It may be Michelangelo's David, or the frosted curlicues on a fancy cake, a song well sung, or an A in a difficult class. It could be a home run executed by a talented batter, or it could be the transforming of one's life into the likeness of Him.

dedication

MR. DWIGHT MILLER

We humbly dedicate
This 1967 Lighthouse
To a truly fine man.

He has been a vital part
Of this Academy
For sixteen years.

His knowing, inspiring smile,
His constant interest,
His patience and willingness
To help when an experienced hand is needed
In the business office,
Has smoothed
Many a rough edge.

--The Annual Staff

The theme chosen for the year is the art of living.

One of the objectives of the year is living--to appreciate the teacher, as a person, and to make of them life.

One must learn to live with the environment from it. So, let us live around us.

Each of us must live as best as possible. We must not let us lose sight of the fact that this is the painting of life.

You as students, you must live. This is a part of the year. The poet has said:

It is your Prince who will relive the events of the year of you who are living. Henry Van Dyke:

THE ART OF LIVING

For the 1967 Lighthouse is ART. The greatest of all the arts is
the one art that makes all other arts meaningful.

San Diego Academy is to instruct its students in the art of
treating each other as individuals; to respect every student, every
teacher, to choose those personalities that we can most appreciate, and
to be good friends.

To appreciate art, to really derive personal satisfaction and enjoy-
ment, one must learn to see and appreciate the beauty inherent in those

who also exercise every talent to make his own life as beautiful as
possible, not be so busy and encumbered with the mechanics of living that
he forgets which is beautiful. Oliver Wendell Holmes put it this way: "Life
is a picture, not the doing of a sum."

Be such good students that you can be proud of yourselves.
The art of living; as is also being proud of your school. An unknown

"True worth is in being, not in seeming;
In doing each day that goes by,
Some little good--not in dreaming
Of great things to be done by and by."

It's wish that, as you glance through the pages of this book and
this year--now past--each memory will be beautiful; and that those
leaving these halls for the last time will take with you the words of

"Let me but live my life from year to year,
With forward face and unrelenting soul,
Not hastening to, not turning from the goal--"

Mr. Evans: Three's enough for Me! Where do You put it all, Herman?

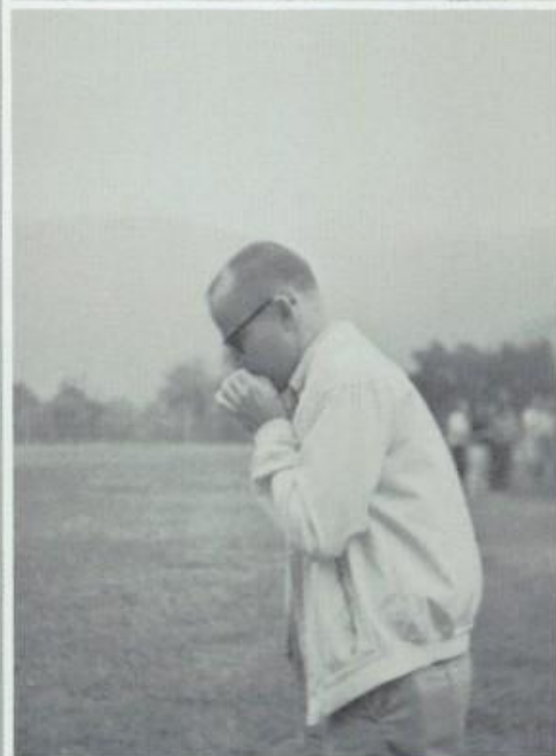

Mr. Nelson: Mrs. Reiner, you're sure wonderful to give me and my faculty all this unheard-of publicity before this large audience of parents and friends. Shall we make this a tradition? Mrs. Reiner: (hiding behind mike and to herself) Just won-der-ful!

The weekend of February 23-26 saw students from all the Seventh-day Adventist academies in The Southeastern California Conference meet at Pine Springs Ranch for spiritual devotion and fellowship. Those who went felt a great inspiration, and a very meaningful blessing was shared by everyone.

Throughout the past year each person associated with our school has grown, learned, created, appreciated, and progressed in his own individual way. We have attempted to record an accurate representation of the experiences that shaped a most memorable year at San Diego Academy.

acknowledgements

Putting together of an annual is the creation of long hours, of enjoyable and sometimes frustrating work. This year, due to the nature of the theme of the Lighthouse, we have traveled many places instead of mainly staying in the vicinity of the school. The Administration kindly gave us the permission to do this. With the help of many people we were able to complete the "dream" of finishing the 1967 Lighthouse. We cannot possibly mention every person who participated in making the annual what it is today, but, we would like to express a special word of gratitude to some of the people who deserve this special thanks.

My two assistant editors: Betti Steen, who worked so hard on the campaign to make it a success and also on the candid pages; Val Allen, whose efficiency on many of the pages as well as paper work was greatly appreciated.

Cindy Kalisch and Lynn Hamren, who did such a great job on the Senior write-ups and other layout work.

Nancy Bowers, Sherrie Knapp and Sherry Zier, who did such an excellent job on the class layouts, organizations and activities; especially Sherrie and Nancy for giving up some of their afternoons to work on Ads and photography.

Leslye Kolpacoff and Sandy Wilcox for obtaining much of our Advertising business.

Larry Marshall, our staff photographer for the excellent and important snap shots.

Mr. Smith and Mr. W. S. James for their help in shooting and developing pictures.

Dr. Reese for letting us use his darkroom facilities.

William Pierce Studio for the terrific portraits and groups.

My father for the use of his cameras which was greatly needed.

Jones Gallery of La Jolla
Shuster and Wulf Gallery of Grossmont Center
Scripps Institute of Oceanography
San Diego State College

My mother who gave us the continual use of her car.

Mr. Hendley, whose vital assistance we would have been lost without.

Mr. Nelson for his co-operation and encouragement with our problems; and the Faculty and Students for their enthusiastic support.
